Dr. Mohamed Khabou Appointed
Dean of the Hal Marcus College of Science and Engineering

I am pleased to announce the appointment of Dr. Mohamed Khabou as Dean of the Hal Marcus College of Science and Engineering. Dr. Khabou first joined the University in 2002 as an assistant professor in Electrical and Computer Engineering. He has served as Chair and more recently as the Associate Dean of the College since 2019. As Associate Dean, he made many contributions to the College from implementing parts of the College Vision to managing the graduate budget to leading the incorporation of High Impact Practices into many of the College courses. He has been indispensable in the College's fundraising and played a major role in securing the $1 million gift his home department received from Dr. Muhammad Harunur Rashid.

I have every confidence in Dr. Khabou's leadership and ability to keep the college moving forward. Please join me in welcoming Dr. Khabou to his new role as Dean.

Jaromy
