Mock Interviews:

You have attended all of the workshops and now are ready to start interviewing. This is a one hour appointment that will have you answering the same questions as what you will find in the interview for that perfect job. After the question/answer period, feedback will be presented to you so you know what you did great on and what can be improved.

What is great about these mock interviews, is that you also have the option to have them recorded/taped so that you can look back and observe the interview from an outside perspective. You may notice that your hands were twitching, or that you were too relaxed when sitting, or that you seemed to stumble over your words more than you thought you were. The Mock Interviews definitely have helped students prepare for the most nerve-racking part of applying for a new job. To set up an appointment, call **Career Services at 474-2254**.
