Cooperative Education:

Cooperative Education (CoOp) allows students to gain professionally relevant work experiences that complement their academic studies. Combining paid work experience with their studies, CoOp students have an opportunity to explore their professions and apply principles acquired in the classroom.

Students enter the program by attending a Cooperative Education and Internship Info Session offered through Career Services. Students must then receive departmental recommendation for the program and attend an Individual Planning Session. From there students begin to apply and interview for CoOp positions. Upon accepting a CoOp position students are enrolled in the Cooperative Education Program. Cooperative education is always paid, always for credit, and always a multiple semester experience.

Part of a Student Organization?

Think about scheduling a Career Services Speaker to come and educate your members on professional standards. Do your members apply for jobs on and/or off campus? Do they put your organization's name on their resume? Assure yourself that employers are impressed with your organization's members when they see your name under "Organizations". Call 474-2254 or go online and request a speaker through the link. (http://www.uwf.edu/career/cs_studentAlum/speakerRequestForm.cfm)
