## An Info-block on the Lakeview Center

*Leslie Morton, HR Manager for the Lakeview Center and a clinical staff member will speak about the type of work done at Lakeview and transitioning from a student to working in the field etc. Information will also be shared about current positions for student workers, volunteer programs and internships.*

Lakeview Center's mission is to provide high quality behavioral health care and vocational services to meet the needs of the people and communities we serve. People handle stresses of life in different ways. While some meet their challenges head-on, others may feel unable to cope. Their mental health may suffer; they may turn to alcohol or drugs; they may lose their jobs. The professionals at Lakeview Center understand these problems. Lakeview Center offers more than 50 treatment and vocational programs to provide solutions for children, teens, adults and seniors.

In addition to providing general residential, outpatient, day treatment and therapeutic foster care services, Lakeview provides drug and alcohol treatment programs. Lakeview also serves the community through crisis telephone lines, counseling support in schools, and community 24-hour crisis evaluations.

Lakeview Center employs psychiatrists, psychologists, licensed mental health counselors, social workers, therapists, nurses, vocational specialists and other professionals. Lakeview Center serves thousands of individuals each year. The center is governed by a local volunteer board of directors.

Remember, to speak with Leslie, attend the info session this Wednesday in the Nautilus Chamber at 4:30!
