

SCHEDULE

Students will attend an intensive (8-9 hour day) 3-week session during the first and second summers of enrollment. During the regular academic year, the students will be actively engaged in the teaching profession implementing, testing, and expanding their knowledge of physical education instruction while maintaining enrollment and interaction with faculty at UWF. After the two instructional years are completed, the students will return and defend their program (research, curriculum changes, etc.) to their peer cohort. The specialization is designed, therefore, to not only accommodate practicing teachers, but to assist their knowledge and skill growth through the active use of the information and instruction they receive in the specialization.
