

Managing Sustainability and Resiliency, Graduate Certificate

Mission Statement

The MSA program ensure that graduates, in their full diversity, achieve mastery of the skill sets that will enable them not only to perform the professional work tasks in their respective fields competently but also to assume roles as strategic team members who can apply innovative planning and problem solving to further the goals of their organizations.

Student Learning Outcomes

Students with a certificate in Managing Sustainability and Resiliency will be able to do the following:

Content

- Differentiate between sustainability and resiliency as they apply to the public and private sectors

Critical Thinking

- Analyze the process of leadership and the purpose of sustainable leadership;

Communication

- Communicate the importance of sustainability and resilience in public management/policy environments to diverse stakeholder groups, as primary, unifying principles.

Integrity/Values

- Examine the integrity of sustainability and resiliency processes in organizations.

Assessment of Student Learning Outcomes

Students demonstrate knowledge, skills, and abilities throughout their academic preparation, culminating in a variety of capstone experiences where they synthesize program learning outcomes to showcase their experiences and knowledge.
