

ALLIANCE FOR MEDICAL INFORMATICS

Support for Regional Extension Centers <http://uwf.edu/sahls/alliance/rec.cfm>

The **Alliance for Medical Informatics** is pleased to offer a suite of support services to regional extension services throughout the U.S. Please email medicalinformatics@uwf.edu for details on any of these items.

- Online training for trainers or participants
 - Online [CME/CEU mini-courses](#) for continuing education
 - Online academic certificate training
 - [Certificate in Medical Informatics](#) - 4 course certificate program at the undergraduate or graduate level
 - [Advanced Graduate Certificate in Medical Informatics Teaching and Integration](#) - 6 course certificate program at the graduate level
- Electronic resources for REC training program development
 - Ebook, updated annually** - Administrators and trainers may request a free copy of our electronic book, *Medical Informatics: Practical Guide for the Healthcare Professional*, for consideration for adoption in their training programs.
 - Medical Informatics Resource Site** - Administrators, trainers, and participants may use our electronic [Medical Informatics Resource Site](#) to visit resources. The topics of this site parallel the eBook.
 - The Orange Grove - Florida's K-20 Digital Repository** - The Alliance will provide some FREE resources for teaching medical informatics through Florida's [Orange Grove](#) site.
- Customized eBook to suit your training program

We can work with trainers and administrators to develop customized-versions of our eBook with trainer/administrator input on selected chapters. Delivery of paperback version may also be possible.
- Helping your REC hire the best staff

The Alliance for Medical Informatics would be happy to invite you to join our Alliance for Medical Informatics group on [LinkedIn](#). You can use this social networking site to:

 - Review posted resumes of those willing to teach, guest lecture, or consult in your training programs.
 - Announce job openings you have at your REC to members of our Alliance for Medical Informatics network.
- Marketing for your REC

Receive contacts for vendors providing excellent services to market your REC with dynamic websites, posters, brochures and creative promotional items.
